Hi-Traction® Covers for OFFSHORE

Drill Ships, Semi-Submersibles, Jack-ups, and Barge Tender Rigs

SAFEGUARD®
Hi-Traction® Covers
 The widest range of Anti-Slip Products and Options in the World.

The Safeguard Difference

Safeguard® Hi-Traction® Covers are manufactured in the widest range of base material construction including 1.2 mm (18ga.) #316 Stainless Steel, G90 Hot Dipped Galvanized Steel, and Pultruded FRP/GRP Composite (Fiberglass). Incorporating Fused Alumina Aggregate makes Safeguard Covers durable enough to provide years of Anti-Slip protection backed by a 5 year warranty.

Safeguard Products Used Extensively In These Areas:

- Thruster Room
- Helideck Stairs
- Pipe Deck & Mud Module Stairs
- Drill Floor Deck
- Crane Area

Six Sizes of Grit

Safeguard offers six sizes of grit. Super Coarse and Extra Coarse have become the industry standards for the Oil & Gas exploration industry. For less harsh environments such as crews quarters, shower and locker room facilities, fine grades are available.

situations. Our photoluminescent pigment is non-toxic, non-radioactive and can be recharged repeatedly during the life of the product.

One and Two-Tone Color Configurations

“Safety Yellow” is the most popular color used, but by incorporating a second color, a two-tone configuration can be created, calling attention to the leading edge. This will provide a contrast between the step edge and the back of the tread for easy definition and clarity.

Installation

Safeguard® Hi-Traction® Covers are non-load bearing, and are pre-fabricated for installation over existing surfaces, including steel and composite grating as well as metal, wood and concrete. Installation is accomplished using Universal Saddle Clip assemblies, Screws, Bolts and Adhesive.

Since 1992, **SAFEGUARD® Hi-Traction® Covers** have been used throughout the world, by these and other leading companies:

Glo-Traction® Colors

Photoluminescent glow-in-the-dark colors can offer extended safety for crew members and employees when darkness falls or power failures occur. Combine Glo-Traction® Colors and safety messaging to provide critical directions for escape routes on steps, walkways, and ladders in emergency

Descriptive Messaging and Logos

Safeguard was the first to incorporate Safety Messaging & PPE Symbols on our complete line of Hi-Traction® Covers. Reinforce safety with universally recognized symbols, thus eliminating language barriers. Safeguard also offers corporate logos to enhance branding and reaffirm safety compliance programs.
