

Anti-Slip Hi-Traction® PIPE-BRIDGE™

SAFEGUARD
TECHNOLOGY
Leading Manufacturer of Anti-Slip Safety Products

Safeguard® Hi-Traction® Pipe-Bridge™

Create a slip-resistant bridge for areas where walking can cause serious injury. When workers cross over irregular surfaces to get the job done, Safeguard Hi-Traction Anti-Slip Pipe-Bridge can make conditions less dangerous.

Anti-Slip Hi-Traction® PIPE-BRIDGE™

SAFEGUARD Pipe-Bridge
Bridge the gap between pipe stock,
to prevent accidental slips and falls.

SAFEGUARD Pipe-Bridge offers excellent protection against slips and falls while crossing large sections of pipe.

Short Tread shown in bundle and rolled out in image to the right.

- Prevents Slips and Falls
- Lightweight and Portable
- Easy to Use – No Installation
- Impact and Puncture Resistant
- Corrosion Resistant
- Rolls for Storage
- Meets OSHA & ADA Coefficient of Friction Guidelines

Walking across pipe stock can be problematic for workers, and even more dangerous when water, oil, and chemicals are introduced. Use a SAFEGUARD Anti-Slip Hi-Traction Pipe-Bridge to immediately create a safe walkway.

A compact, lightweight bundle when rolled for storage, Safeguard Pipe-Bridge can reduce slips-and-falls in situations where workers walk across unsafe areas. Simply unroll to extend over the distance, creating a temporary, slip-resistant pedestrian path. No installation required.

This heavy duty, flexible geomembrane is combined with 3/8" (.375) Fiberglass (FRP) treads to provide the superior anti-slip properties characteristic of all Safeguard products.

Long Tread shown rolled out

Pipe Bridge Details		
	Vertical - Short Tread	Horizontal - Long Tread
