

SAFEGUARD TECHNOLOGY

Leading Manufacturer of Anti-Slip Safety Products

Protect Students, Teachers, Workers, and Visitors from Slips-and-Falls with **SAFEGUARD® Hi-Traction® Anti-Slip Covers**

**Hi-Traction Anti-Slip
Step Covers**

**Hi-Traction Anti-Slip
Ladder Rung Covers**

**Hi-Traction Anti-Slip
Walkway Covers**

People count on the safety of your campus - but not all steps, walkways, and ladders are up to the challenge. Surfaces such as concrete, tile, diamond plate, and wood can be very slippery and even more hazardous when wet, icy, snowy, or dirty.

SAFEGUARD® Hi-Traction® Anti-Slip Covers are installed over existing surfaces to increase traction and improve safety. Indoors or out, they also upgrade the appearance of the underlying surface.

SAFEGUARD® Covers Protect Your Students, Staff, and School

Full Range of Anti-Slip Products

Step Covers • Walkway Covers
Ladder Rung Covers
Landing Covers • Anti-Slip Tape
Pipe & Cable Covers
Roll-Traction • Direct Gritting
Valu-Traction • Mat-Traction

Easy to Install

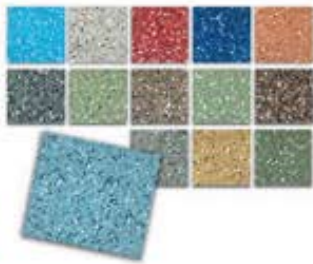

Covers are made to size and ready to install, no cutting required. Unlike paints and tapes, these covers last for years.

Aesthetics

SAFEGUARD® Covers can be installed over any surface to provide a safer walking environment, including tile, concrete, wood, and metal. *Our Anti-Slip Covers are not load bearing and are only for installation over existing surfaces.*

Color Palette

SAFEGUARD® offers a full line of:

- Standard & Safety colors
- Premium colors
- "Glow-in-the-Dark"
- Two-Tone Configurations
- Custom Color Matching

Descriptive Markings
